Under this agreement for 2017
Milman State School will receive $8,648*

This funding will be used to
Guarantee that every child will either:
• Achieve NMS in literacy and numeracy for their year level; or
• Every student accessing a different year level curriculum (that is, with an Individual Curriculum Plan) will achieve a 'C' standard or better against the relevant year-level achievement standard.
• Have an evidence based learning plan to address their specific needs.

Our initiatives include
• Provide focused and intensive teaching targeted at ‘C’ students in order to improve the quality of their demonstrations of learning against the relevant year-level achievement standard.
• Build staff capacity in the explicit teaching of numeracy.

Our school will improve student outcomes by
• Employing a 0.6 teacher to provide focused teaching for students identified as being below expected benchmarks.
• Support staff in professional development activities that increase the overall capacity for the school to provide high quality learning outcomes for all students in the area of numeracy.

Tamara Wemyss
Principal
Milman State School

Dr Jim Watterston
Director-General
Department of Education and Training

* Funding amount estimated on 2016 data. Actual funding will be determined after 2017 enrolment data are finalised.
